

New Exhibitor Profile

as of Mar 31, 2006

Bakery Showcase 2006 is a forum for industry suppliers to demonstrate the latest in products and services for all members of the baking industry. We are pleased to be able to highlight a few of our newest exhibitors to this year's event.

Route Delivery & Sales Force Software

With the CIS Group everything connects: Inventory, meetings, orders, invoicing, returns, outlets, customers.....So that you can spend your time on what's most important: SALES

Mobile Technology for your sales force: Using the latest mobile technology, Sales Companion™ allows sales reps and delivery personal to enhance their efficiency and better manage their sales cycle. Sales Companion™ runs on handheld computers, tablet PCs or Ultra Light notebooks.

A complete computer assistant: Companion™ Suite is designed to help sales representatives and delivery personal in their daily activities by providing the required tools to simplify and optimize their performance. (Ex: Electronic truck loading or automatically computed suggested orders.)

Quality Flavours & Extracts

Founded in 1998, Bonnie & Don Flavours Inc. is a Canadian-owned creator and manufacturer of quality flavours and extracts for the food and beverage industry.

Flavour research and creation, administration and production facilities are all based in Mississauga, Ontario. We have sales personnel located in Québec and Ontario, with representation in Florida, Michigan and Ohio.

Our concern for Quality and Food Safety has recently lead us to accreditation of compliance to ISO 22000 / HACCP by Intertek, the world-renowned certification organization. We are very proud of this accreditation, as we are one of the first company's worldwide to have achieved this.

"Thaw-and-Serve" Baked Products

Family owned & managed, Tradition Fine Foods Ltd. is the leader and innovator of "thaw-and-serve" baking technology. For almost 25 years, Tradition has been the supplier of choice to dozens of Retail Food Chains (Private Label) and Multinationals (Co-Pack).

Tradition's Muffins, Cookies and Croissants are mixed from scratch and produced on state-of-the-art equipment. We use only the finest ingredients and manufacture under the strictest of quality control systems. Tradition is certified AIB "Superior" for the 4th year in a row!

Artisian Products With An Industrial Discipline

BRIDOR has taken traditional methods and adapted them to today's industrial processes. Bridor's success has been built on its baking expertise and the pursuit of tradition and of knowing how to carefully choose the best ingredients while demonstrating an active respect for the modern process and the finished product.

BRIDOR set the industry standard with the installation and operation of the first production line for par-baked, frozen breads and frozen, proof & bake Viennese pastry in North America. Bridor adapted to new market demands by assuring the quality, consistency and food safety that even the most demanding clients have a right to expect.

Paper Product Manufacturer

Founded in 1948, De Luxe Paper Products Inc. has been a major player and stakeholder in the specialized area of paper product manufacturing and converting for the Baking trade.

Our HACCP Certified plants are located in both; Ontario and Quebec and our product mix includes: A Full Line of Baking Pan Liners, Window Bread Bags, Micro Perforated Poly Bread Bags, Foil Garlic and BBQ Bags, Waxed Papers, Cake Decorating Parchment Triangles and a large variety of other treated papers used in the Baking trade.

Fresh Fruit & Vegetable Processor

Vegfresh is a premium processor of fresh fruits and vegetables directing our talents specifically to the baking industry. Vegfresh manufactures various standard and custom products such as fresh preservative free and non-aseptically packaged banana puree, orange and lemon pulps, various carrot and zucchini shreds and a full line of peeled and cut produce for any application. Coupled with being HACCP, ISO-9001-2000 and Kosher certified all our customers can be assured that every product we manufacture adheres to strict G.M.P guidelines. Let our team show you why we've been a leader in fresh ingredients for the baking industry.

Environmentally Friendly Sanitation Products

Qwatro Corporation is a leading manufacturer of EcoLogo Certified, environmentally friendly sanitation products. Qwatro products are widely used in food and beverage processing plants, industrial and institutional facilities, food service, warewash, laundry, healthcare and maintenance areas.

Qwatro is dedicated to the development of green cleaning products. The partnership with the Government of Canada's Environmental Choice Programme reflects Qwatro's commitment to manufacture highly effective products that promote a cleaner, greener environment and a safer workplace.

Automation System Specialist

The Perfect Score Company, Inc. specializes in the design and build of standard and custom automation systems, specialty machinery, conveyors, product aligners, slicers and bread scoring systems for the baking industry.

The Perfect Score Company is recongnized as the industry leader in automated bread scoring systems featuring their innovative and proprietary designs, offering a variety of models and configurations to meet their customers specific needs. Scoring units to fit existing

production lines or a system complete with specialty conveyors, The Perfect Score can create the right system for both large and small bakeries.

Experts in Chocolate and Cacao

Barry Callebaut has more than 160 years of expertise in chocolate and cacao dedicated to Gourmet professionals. Barry Callebaut proposed to artisans four recognized groups of brands, each with its own specific product range primarily aimed at these specialists.

- Cacao Barry: a broad range of chocolates with the refined and strong taste preferred by the pastry Chefs.
- Callebaut: the gold reference when it comes to chocolate and confectionary.
- Carma: Swiss reference for confectioners and caterers.
- Van Leer: chocolate designed, created and dedicated to the North American market.

European Style Showcases

Vega Mfg. Ltd. is a European Style Showcase Manufacturer. Our NSF Certified Refrigerated, Dry & Hot displays highlight and keep your products fresh. Customized cases, counters & shelving systems make our cases fit into your design layout. "Design, Functionally and Craftsmanship."

Frozen Quality Desserts

Building on a tradition of excellence since 1984, Sugarplum Desserts has expanded from humble beginnings to serve more than 60 varieties of quality desserts featuring real chocolate, real whipping cream, roasted nuts, grade A butter, premium cream cheese, and pure natural flavors. Our desserts are customized for food service and in-store bakeries to reflect customers' changing tastes and needs. Select from frozen classic baked cheesecakes, mousse cakes, layered cakes and pre-portioned cookie dough.

Our cakes are uniquely hand decorated, with signature chocolate decorations for our premium lines. Finished products are flash-frozen for maximum freshness and held in cold storage for shipment across Canada.

Relocate to Brantford-Brant

Located one hour southwest of Toronto, Brantford-Brant is ideally situated on Highway 403 to offer the shortest-traveled major highway route between the U.S. border points of Detroit and Buffalo, as well as the advantages of a highly-skilled local workforce, affordable cost of living, competitively-priced industrial real estate, and state-of-the-art infrastructure.

Packaging Machinery, Films and Services

Based out of Canada, with offices in Toronto and Montreal, Celplast offers a full range of packaging machinery, films and services. For the past few years Celplast has been the recipient of the Shanklin Presidential Award given to only a handful of distributors worldwide in recognition of sales and service excellence. Celplast remains one of the top distributors in North America for Clysar and Reynolon while ensuring our customers have the support and insight of industry experts Starview, and Flex-O-Glass at their disposal.

IS/IT Solutions

I2V is proud to introduce CDI Reports at Bakery Showcase 2006; all Special Milk Class Permit holders should benefit from our

comprehensive software which will give you accuracy and reduce reporting along with auditing time.

I2V offers the baking industry a reliable, single point of contact solution for each and every one of your IS/IT needs. Our comprehensive offerings include strategic consulting, infrastructure solutions, research and development, web services and consulting. Our team will enable you to concentrate on your core business by acting as your IS/IT department. At I2V, we are dedicated to providing unrivaled customer service ensuring the success of your business.

Garlic, Ginger & Tomato Processor

Derlea Foods is a family owned and operated processor of garlic, ginger and tomato products. Founded in 1984, the business was started and grew by selling garlic spread to local restaurants. Today, Derlea Brand Foods processes a wide range of products for the retail, bakery and foodservice sectors.

Industrial Vacuum Systems

Nilfisk CFM manufactures a complete line of Industrial vacuum systems which simplify the safe collection and disposal of toxic, hazardous and nuisance waste materials.

Dirt, dust, powders, and other contaminants get in your way. They threaten product purity, employee safety, and the overall efficiency of your operations during virtually every step of the manufacturing process. Nilfisk CFM looks at your overall operation and offers a vacuum solution that will keep it clean, capturing every destructive particle of debris.

Our heavy-duty Nilfisk and CFM vacuum cleaners efficiently collect everything from food scraps to pharmaceutical powders to bulk materials. Their high-efficiency filtration systems and low-maintenance operation make them ideal for uses as varied as general maintenance cleaning in manufacturing plants to critical contamination control in cleanrooms.

Dry Bulk Material Handling

Founded in 1991, HERTECH Industries offers a wide variety of components or complete systems to handle dry bulk materials. Our group employs professional engineers and technicians with many years of experience in multiple industries handling dry bulk materials. Our in-house manufacturing enables us to offer our customers reliable solutions in a cost effective manner.

We will be exhibiting: A new sac dump station with vibrating screen and vibrating bottom with a dust collector, diverter vales, gate valves, bin vent and compact dust collector.

Dry Vapor Cleaning Equipment

Rea provides dry vapor cleaning equipment for use in the bakery and food ingredient industries. The equipment allows facilities and equipment to be cleaned and sanitized without the mess and disposal issues created by pressure washing. Equipment and containers can be cleaned in place without the labour associated with manually scraping and wiping down of equipment or dismantling it for washing elsewhere.

Vapor easily removes dry ingredients from machinery without cross contamination risks and effectively removes doughs, allergens and other soils from equipment and surfaces that have product contact. Vapor easily melts sugars, fats and other substances from equipment and floors vacuum recovering them up for appropriate disposal.

Baker's Yeast & Bread Improvers

Pakmaya, one of the world's major producers of baker's yeast and bread improvers, reaches millions of people every day by providing the food industry, as well as individual households, with top-quality baking products. Since the opening of its first plant in 1973, Pakmaya's market share has been growing at a phenomenal rate. Pakmaya products are currently sold in over 100 countries, including of course Turkey where it is the undisputed market leader.

Pressure Sensitive Labels

Dunwoody Booth Packaging Inc. (DBP) is a printer of pressure sensitive labels. The primary production facility is located in Mississauga, Ontario. We specialize in brand enhancement and recognition using high-end graphically printed pressure sensitive labels for your products. Markets include food, specialty/gourmet food, confection, beverage/wine, and health & beauty.

A family owned and operated business since its inception in 1989, DBP utilizes state of the art production and inspection equipment to ensure quality at all levels.

Bulk Material Processing & Handling Equipment

Canada Process Equipment Corporation (CPE) is a sales agency representing the world's leading manufacturers of bulk material processing and handling equipment. We serve the territories of Ontario and Manitoba, specializing in the food, chemical, plastics, pharmaceutical, mining, and agricultural industries.

CPE is committed to assisting our customers in every way possible. We pride ourselves in understanding both the products we sell and their end use application. This allows us to develop a trusting and long term relationship with the client. If CPE does not offer the equipment solution for your process, we will almost always let you know who can!

Baking Paper Products

Ecopack has been a leader in the manufacturing of various baking paper products since 1939. Experience, state of the art manufacturing techniques and continued emphasis on ecological awareness are only some of the strong characteristics that have made Ecopack what we are today.

We specialize in Muffin Cups suited for industrial use designed to accommodate automated Denesting machinery and production lines. Our wide spectrum of product offering includes: Panettone Molds, Pound Cake Molds, Pie Tart Molds, Cake Molds. We can supply ready-made products and also cater to your customized requirements if need be.

Specialists in Design/Manufacture of Production Equipment

Megart Systems Inc designs and manufactures high quality production equipment for the Baking and Food Service industries.

We specialize in depositing equipment such as single or multi-piston depositors and transfer pumps for batters, crèmes and other flowable products. Available in a cantilever, stand alone design or with incorporated conveying systems.

We also design, build and install conveying systems for cooling/transfer of product or pans and boards.

As well, we fabricate icing, glazing and oil spraying lines, flour dusters, seed and dry topping depositors (for nuts and raisins, etc), bowl and

dough trough elevators, pail fillers and a wide variety of other custom equipment for unique and specialty applications, along with the regular assortment of racks, tables, dollies, bins, etc.

X-Ray and Metal Detectors

OnGuard is dedicated to helping protect food processors from Foreign Object Contamination in their products, specializing in X-ray and metal detection.

For processors who have (or suspect) a contamination problem, OnGuard offers an X-ray service to quickly inspect product and eliminate the foreign material, so the client can ship with confidence. This service is mobile and responsive, to minimize disruption to producers' schedules.

OnGuard also provides sales and applications support for Thermo Goring Kerr X-ray and metal detectors. With over 10 years expertise in X-ray and metal detection, a consultation will help optimize your Quality Systems to minimize the risk of Foreign Objects.

Parts for Conveyors, Packaging, Process and Automation Equipment

We manufacture and distribute parts and materials used in the manufacture and maintenance of conveyors; packaging machinery, process equipment and automation equipment. Parts such as guide rails, wear strip profiles, machinery feet, tripod and bipod bases, support heads, brackets, guide rail clamps and clips, splice sleeves, digital position indicators, handwheels, knobs, ratchet handles, cable wheels, split shaft collars, table top chains, idlers, drive sprockets and many, many other are stocked locally. In addition, we custom manufacture roller chain; round, vee and flat belt tracks and guides as well as table top chain corner tracks, rollers, gears, sprockets and many other parts in engineering polymers.

Pneumatic Conveying Systems for Dry Bulk Materials

Semco Systems Limited is a Canadian owned company, organized to design, manufacture, install and service pneumatic conveying systems. With over 30 years experience in supplying systems for handling dry bulk materials, Semco has built a solid reputation in the industry. We take pride in the fact that a large part of our sales is repeat business from existing customers.

Flavour Extracts Specially Formulated For Baked Goods

FlavrDough is Tapeko's branded product line of flavour extracts specially formulated for the baked goods market. The highly concentrated liquid formulation allows the customer to increase the flavour load in batches to a point where the cost of a FlavrDough dose is the same or less than current flavouring products (e.g. garlic powder). Available flavours: Garlic, Savory Blend, Basil, Oregano, Cilantro and two new flavours – Roasted Garlic and Jalapeno.

Recently, an exciting value added application of our flavoured extracts was created specifically for private label. It's a tremendous opportunity to combine olive oil with our extracts to create unique flavoured oils for bread dipping. The flavours developed are Lemon/Oregano, Roasted Garlic, Basil and Jalapeno.

Middle East Style Bread

Founded in 1986, Breadko Bakery's main objective was to provide Middle East style bread to ethnic markets throughout the Greater Toronto area. The first products to be produced by Breadko were the

Breadko small and large white and whole wheat as well as the Breadko Greek white and whole wheat. Production and demand steadily started to rise and Breadko Bakery began to expand. By 1989 Breadko introduced their Alwatan Line which were available in medium and extra large sizes. In 1990, Breadko introduced their Tiranga Nan, high fiber breads and organic breads. Since the beginning there was always a focus on technological and production improvements.

Ice Cream, Frozen Yogurt and Sherbet

At Maypole, we have been producing our exclusive brand of ice cream, frozen yogurts and sherbets for the foodservice industry since 1950, maintaining a proud family heritage. We continue to produce our ice cream the old fashioned way, always tastes fresh as we make each flavour more often.

Delivering direct to parlours and restaurants from our Etobicoke plant, we have grown to have the largest selection of flavours in the 11.4 L tub size in Ontario.

All of our ice cream is simply delicious – rich and creamy, with unique flavours chock full of candies, fruits, nuts and swirls. And what's best, once your customer is hooked, they have to come back to YOU for more – our ice cream.

Natural & Nutritional Food Ingredients

N2 Ingredients Inc. is a young and dynamic supplier of ingredients to natural and nutritional food product manufacturers. We have a passion for seeking out new trends in natural and nutritional foods, and in sourcing ingredients from around the world to assist our customers in seizing these emerging opportunities. We operate in the belief that by helping our customers achieve success with their ventures, we ensure our own. Whether you are looking to launch a new product to seize an

emerging trend in the natural and nutritional foods segment, or simply looking to improve the nutritional parameters of an existing brand, N2 can help.

Canadian Flavor Manufacturer

Flavorchem International Inc. is the largest privately owned flavor manufacturing company in Canada, 100% Canadian owned. We have nine flavorists and technicians working in our R&D laboratories, so we may provide quality service as required. We are also in the process of designing and building a state of the art manufacturing and research centre in Scarborough, Ontario with a scheduled move-taking place in late summer of this year. Our main product lines are: Natural, Natural & Artificial, & Artificial Flavors, Natural Flavor, Spice & Herbal Extracts, Aromatic Chemicals, Essential Oils, Spice Oleoresins, Hydroresins, Colors, Pure, Natural & Artificial Vanillas. These products are available in Liquid oil & water-soluble forms and in Powder both Physical Mix and Spray Dried form. We also do Private Label Development, Blending and Packaging upon request.

Pest Control

Abell Pest Control Inc. has a reputation as the leader in the pest control industry across Canada and the United States and especially in the Bakery Industry! Abell is committed to continuing to provide on-going training and education to our dedicated technicians to ensure you receive the most effective and professional service in the Bakery industry. We have a large and seasoned Quality Assurance team that offers you a unique resource and customized, audited programs that deliver excellent value! Currently celebrating 82 years of dedicated and trusted service, we recognize the importance of quality service and trust.
